## COMMENTS

All data presented in this publication are rounded to the nearest 5.

All data presented in this publication are provisional (except as otherwise stated) and may be a subject to change.

As part of Eurostat's guidelines for the dissemination of data when the EU is enlarged, the aggregate data series commented on in this publication refer to the official composition of the EU in the most recent month for which data is available. Thus publications with data for months up to June 2013 will comment on EU27 series, while publications with data for July 2013 onwards will comment on EU28 series.

[Eurostat's guidelines](#) can be found on the Eurostat website.

## COUNTRY INFORMATION

Due to the implementation of a new computing system, **The Netherlands** is temporarily unable to provide statistics on first instance decisions on asylum applications.

In **France** data on pending applications do not include accompanied minors aged less than 16 whose application is examined jointly with their parent's application. According to France, these missing pending applications are estimated to be about 20 per cent of the total number of pending applications.

The number of rejections at first instance in **Italy** includes a number of recommendations to issue an authorization to stay for humanitarian reasons. These recommendations are issued by the National Asylum Commission to the Police. Therefore the number of first instance rejections can be overestimated. Indeed, some individuals might be counted twice under the same reference period: first as a person rejected and recommended for an authorisation to stay for humanitarian reasons and subsequently as a person granted an authorisation to stay for humanitarian reasons.

## DATA SOURCES

The data used for this publication are provided to Eurostat by the Ministries of Interior, Justice or immigration agencies of the Member States. Data are based entirely on relevant administrative sources. Apart from statistics on new asylum applicants, these data are supplied by Member States according to the provisions of Article 4 of the [Regulation \(EC\) 862/2007](#) of 11 July 2007 on Community statistics on migration and international protection.

## DEFINITIONS AND COVERAGE

'**Asylum applicant**' means a person having submitted an application for international protection or having been included in such application as a family member during the reference period. 'Application for international protection' means an application for international protection as defined in Art.2(g) of [Council Directive 2004/83/EC](#), i.e. including requests for refugee status or for subsidiary protection status, irrespective of whether the application was lodged on arrival at border, or from inside the country, and irrespective of whether the person entered the territory legally (e.g. as a tourist) or illegally. In deciding when to regard an asylum application as having been lodged, the principles expressed in Article 4(1) of Council Regulation 2003/343/EC should be applied, i.e. 'An application for asylum shall be deemed to have been lodged once a form submitted by the applicant for asylum or a report prepared by the authorities has reached the competent authorities of the Member State concerned. Where an application is not made in writing, the time elapsing between the statement of intention and the preparation of a report should be as short as possible'. Applications submitted by persons who are subsequently found to be a subject of a Dublin procedure (Council Regulation (EC) No 343/2003) are included in the number of asylum applications. Within the same reference period every person being a subject of asylum application is counted only once, therefore repeat applications are not recorded if the first application has been lodged in the same reference period. However, such a repeat application will be recorded if lodged in a different reference month. It means that the aggregation of the monthly figures may overestimate the number of persons applying for international protection within the aggregated period (quarter or year).

In some Member States (**IT**, **MT** and **DK**) due to restrictions of the asylum procedure (e.g. time limits for lodging repeat application) repeat applications may be very rare. Therefore the number of new asylum applicants may equal or almost equal the number of asylum applicants.

The number of asylum applicants and the number of first instance decisions during the same reference period differs. This is due to the time lag between the date of asylum application and the date of the

decision on asylum application. The duration of this time lag may vary considerably depending on the national asylum procedure and the administrative workload. Asylum application lodged in one reference period may therefore result in a decision in a later period, while some asylum decisions reported for that period may relate to the applications lodged in previous reference periods.

**'New asylum applicant'** means a person having submitted an application for international protection for the first time. Applications submitted by persons who are subsequently found to be a subject of a Dublin procedure are included in the statistics on new asylum applicants if such persons are also a subject of first asylum application. All Member States are requested to supply these data but their provision is voluntary. As persons are counted once only, statistics on new asylum applicants may be used for preparation of annual aggregates.

Person being a subject of **'a pending application'** means a person who is the subject of application for international protection under consideration by the responsible national authority at the end of the reference period. It includes the number of persons with pending applications at all instances of the administrative and/or judicial procedure.

**'Rejected applicant'** means a person covered by a first instance decision rejecting an application for international protection, including decisions considering applications as inadmissible or as unfounded and decisions under priority and accelerated procedures, taken by administrative or judicial bodies during the reference period.

**'Person granted refugee status at first instance'** means a person covered by a first instance decision granting refugee status, taken by administrative or judicial bodies during the reference period. Refugee status means status as defined in Art.2 (d) of Directive 2004/83/EC within the meaning of Art.1 of the Geneva Convention relating to the Status of Refugees of 28 July 1951, as amended by the New York Protocol of 31 January 1967. According to the Art.2(c) of that Directive refugee means a third country national who, owing to a well-founded fear of being persecuted for reasons of race, religion, nationality, political opinion or membership of a particular social group, is outside the country of nationality and is unable or, owing to such fear, is unwilling to avail himself or herself of the protection of that country, or a stateless person, who, being outside of the country of former habitual residence for the same reasons as mentioned above, is unable or, owing to such fear, unwilling to return to it.

**'Person granted subsidiary protection status at first instance'** means a person covered by a first instance decision granting subsidiary protection status, taken by administrative or judicial bodies during the reference period. Subsidiary protection status means status as defined in Art.2 (f) of Directive 2004/83/EC. According to the Art.2(e) of that Directive a person eligible for subsidiary protection means a third country national or a stateless person who does not qualify as a refugee but in respect of whom substantial grounds have been shown for believing that the person concerned, if returned to his or her country of origin, or in the case of a stateless person, to his or her country of former habitual residence, would face a real risk of suffering serious harm and is unable, or, owing to such risk, unwilling to avail himself or herself of the protection of that country.

**'Person granted authorisation to stay for humanitarian reasons at first instance'** means a person covered by another first instance decision granting authorisation to stay for humanitarian reasons under national law concerning international protection, taken by administrative or judicial bodies during the reference period. **It includes persons** who are not eligible for international protection as currently defined law but are nonetheless protected against removal under the obligations that are imposed on all Member States by international refugee or human rights instruments or on the basis of principles flowing from such instruments. Examples of such categories include persons who are not removable on ill health grounds and unaccompanied minors.

**'Dublin procedure'** means a procedure according to the Council Regulation (EC) No 343/2003, establishing the criteria and mechanisms for determining the Member State responsible for examining an asylum application lodged in one of the Member States by a third-country national.
